

Gaza Terrorists Likely Have ‘a Few Hundred’ Rockets Left

written by Prof. Kobi Michael | 12.01.2025

Prof. Kobi Michael: I think it's more than dozens. I think we're talking about a few hundred rockets. We have to remember that Hamas prepared in advance for launching very large barrages at Israel, and hence, many rockets were prepared ahead of time," including in underground locations and in orchards, he told JNS.

Currently, the vast majority of the Hamas and PIJ arsenal has been destroyed. Some of its precious few remaining rockets are being launched as IDF forces close in on them.

While Hamas retains small arms, TNT, and, potentially, the capacity for extremely restricted rocket production, Compared to what they had in October, and even after Oct. 7, we're talking about completely minimal capabilities.
