

Israel to 'accelerate attacks' as Lebanon death toll rises to 569

written by Prof. Kobi Michael | 25.09.2024

Prof. Kobi Michael: After 11 months of attritional war that Israel cannot tolerate any more, Israel signals that it would be better for Hezbollah to be serious around the negotiating table (with yesterday's strikes). If they will not be serious in this regard, then Israel will be much more serious.

This is only the beginning... and if the Hezbollah reactions will cross the Israeli red lines, then Israel will be in an all-out war with Hezbollah.
